A photograph of a dental X-ray machine control panel. The panel is white with a green top border. It features a list of settings under the heading "角度リセット" (Angle Reset). The settings are organized into two columns, with the left column labeled "No" and the right column labeled "Angle Position". The settings include various angles for LAO, RAO, CRA, and CAU. A small green sticker with the text "m下板 53" is visible on the left side of the panel.
